Hi All –

I updated the message below with what we know about deployments. I've also attached the latest tracking spreadsheet of the known deployments and scheduled deployments.

Talk to you shortly.

-Josie

Subject: Re: OSC Support needed for ICP Colorado

Here is a draft borrowing heavily from one you penned on Thurs? or Fri?, Calvin.

ET Members, Region 10 Supervisors and the RICT,

We have been contacted by HQ, several Regions and FEMA to actively support response

efforts associated with several on-going disasters. By this message, I am activating our Regional Incident Coordination Team (RICT). Prior to contacting staff about potential deployment, our standard operating guidance requires contacting management to alert and notify you of the RICT activation and that we will be reaching out to Incident Management Team (IMT) and/or Response Support Corps (RSC) volunteers 'in good standing' once specific information pertaining to the expertise needed and other pertinent details are known.

The details below provide information about the deployments to date. No one from our RSC has been asked to deploy but we anticipate that there may be specific needs/expertise as more information about these disasters is obtained. Our intent once we receive this information will be to enlist RICT member involvement, working with Wendy Adams, our RSC Coordinator, to tentatively identify individuals that would be available, willing and able to work here in the REOC or in the disaster-impacted areas.

R10 Regional Emergency Operations Center (REOC) Activation to Coordinate Ongoing EPA Region 10 ER Operations and Requests for Support to HQ/R6/R8/R9

Due to the various cross Regional incidents that are being actively supported by Region 10, the REOC has been activated (as of 14 August 2015) to begin coordinating all emergency response-related activities on behalf of the Region. These personnel are coordinating deployments on the Region's behalf to ensure the health and safety of the responder; we're accurately financing and tracking travel and PPL+; and, issuing special equipment (if needed).

The REOC key leadership positions that oversee REOC activities are there to provide response support management. Other positions may be added, if needed.

As of 14 August 2015, the following positions have been activated:

Planning Support Section Chief (Josie Clark)

Finance Support Section Chief (Jennifer Johnson)

Resources Support Leader (Matt Magorrian)

As of **16 August 2015**, below is a listing of Region 10 staff that have been deployed or are scheduled to support the various disaster responses that we are coordinating out of the REOC:

Colorado Mine Release (Gold King) in support of HQ, R6, R8, or R9:

- A. OSC Heister – Operations Section, Farmington, New Mexico (R9)
- B. RPM Moreen – Planning Section, Durango, Colorado (HQ)

- C. Press Information Officer MacIntyre—Durango, Colorado (HQ)
- D. Critical Incident Stress Management-- Wendy Adams, Durango, Colorado (HQ)

E. OSC Weigel – Incident Commander, Durango, CO (R8)

Typhoon Soudelor in Support of R9:

- A. OSC Becker – FEMA JFO/ESF#10, Saipan (R9)

Tropical Depression 16W in Support of FEMA Incident Management Assistance Team (IMAT):

- A. OSC Sibley – FEMA IMAT, Guam (FEMA)

At this time, these are the current deployments that are confirmed and approved to support the REOC, HQ, R6, R8, or R9. The REOC is tracking additional requests for support that we are receiving. If Program Offices receive deployment requests, including the use of Response Support Corps members, please immediately contact and coordinate with our RICT and RSC leadership: Ann Williamson (Chair) at 3-2739, Wendy Adams (Vice-Chair) at 3-2956, or Matt Magorrian (2nd Vice Chair) at 3-6234.

Additional updates will be issued, as needed. If anyone has questions about this activation, please let me know.

FYI – Looks like we are filling one slot and R3 is available to fill two slots. All done.

Thanks for the quick work, Josie!

Don McLaughlin is available to serve as the FOSC in the Assessment and Mitigation Branch. He's unable to leave tomorrow. I know he can leave available on the 18th and am checking to see if he can leave sooner (17th). Let me know if the 18th is doable.

Thanks, Bonnie

RMs - Region 8 ICP is in need of the following:

- OSC with excellent people skills who will be interacting with the public on a frequent basis to replace an FOSC in the Assessment and Mitigation Branch. START 8/16/15
- OSC to replace Incident Commander. START 8/18 or 8/19
- OSC to replace Sampling Operations Section Chief START 8/18 or 8/19

If you have these resources, please let Janice Pearson know as soon as possible. Please cc me and Brian on any correspondence with Janice for situational awareness.

Thanks!

<image001.jpg>

Josh-

Per my voicemail, we have the need for three (3) OSCs to support the Colorado ICP:

- (1) OSC with excellent people skills who will be interacting with the public on a frequent basis to replace an FOSC in the Assessment and Mitigation Branch. START 8/16/15
- (2) OSC to replace Incident Commander. START 8/18 or 8/19
- (3) OSC to replace Sampling Operations Section Chief START 8/18 or 8/19

We would like a list of available OSCs as we need a very specific set of skills.
